

THINGOLD SHINE

Linda is absolutely an exemplary employee. Since she started with us 5 years ago, she has consistently come to work with an amazing, positive attitude and dedicated herself wholly to improving operations and becoming the best dispatcher she can possibly be. She is incredibly kind and patient with callers, goes above and beyond to assist them in whatever way she possibly can, and genuinely cares a great deal about her community. She has taken on every project given to her with enthusiasm and great attention to detail. She is known in the department as being a person it is impossible NOT to like and truly makes an effort to get to know and have a good relationship with every other employee, including responders. She is part of our wellness committee and spends a great deal of time decorating for various holidays and seasons so that the center is an enjoyable, bright space to work in. She has gotten the center involved in our area holiday parades so that 911 dispatchers are recognized and seen in the community. She works incredibly hard to be her best every single day and is just generally a joy to work with and be around.
