

# THIN GOLD SHINE

TC Pare came to us as a new dispatcher with no prior experience. She fully invested herself in training and gave it 110%. She was always eager to learn, ask question, and put in full effort.

Once she was out of training, she continued to be a “shining star”. She went above and beyond on every call and was always a team mate to be counted on.

After 2 years of being on her own she became a CTO. As a CTO she is tough when needed and nurturing when she has to be. She trains people to be the co-worker you want as your teammate. Abby also has her degree in teaching, so she understands the ins and outs of what is important.

Abby has been great for the training program as well. She has helped developed new quizzes, task list materials, updated the training manual, and our in-house classes.

In 2021 Abby became an APCO agency instructor and now teaches APCO PST. Abby also teaches our in-house classes; Police & Fire, Call Taking, and our CAD Lab.

Abby is also great in the community. She lives in one of the communities that we dispatch for an she always is involved. In 2021 she served as a judge on one of their Chili Cook Off competitions.
